PROFESSIONAL SUMMARY

PHP / Laravel Full-Stack Developer with 4 years of experience building and maintaining web applications, REST APIs, and business platforms using PHP, Laravel, MySQL, JavaScript, and related web technologies. Professional experience includes React.js, Next.js, and Node.js/Express.js development at Aparajitha Software Services, along with earlier experience building Laravel and CodeIgniter applications using HTML5, CSS3, JavaScript, jQuery, Bootstrap, and AJAX. Experienced in REST API development, database optimization, RBAC, authentication, Redis caching, background jobs, third-party API integrations, Docker, Magento 2, Twilio Voice API, and Stripe.

TECHNICAL SKILLS

Languages: PHP, JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3

Backend: Laravel, CodeIgniter 3, Node.js, Express.js, REST APIs, MVC, OOP, Authentication, RBAC, Middleware, API Versioning, Webhooks, Laravel Jobs, Events, Queues

Frontend: React.js, Next.js, JavaScript, jQuery, AJAX, Bootstrap, Responsive Design, CSS Grid, SPA, Reusable Components

Databases: MySQL, PostgreSQL, MongoDB, Redis

Performance: Query Optimization, Database Indexing, Transactions, Redis Caching, Session Management

Integrations: Twilio Voice API, Stripe, REST APIs, Webhooks

DevOps & Cloud: Docker, AWS EC2, S3, RDS, Lambda, GitHub Actions, Jenkins, CI/CD

Platforms: Magento 2, WordPress

Tools & Practices: Git, GitHub, Bitbucket, GitLab, Postman, Linux, Agile/Scrum, Code Review, Unit Testing, Functional Testing

PROFESSIONAL EXPERIENCE

Specialist Engineer — Aparajitha Software Services Pvt Ltd, Madurai

Jan 2025 – Jun 2026

- Developed and maintained full-stack web applications using **PHP, Laravel 8, React.js, Next.js, Node.js, MySQL, and REST APIs**.
- Designed and developed versioned REST APIs with role-based access control, request validation, authentication, and application security controls.
- Built reusable React.js and Next.js frontend modules integrated with Laravel and Node.js backend services.
- Optimized MySQL queries and database indexes, reducing data retrieval time by approximately 25%.
- Built a browser-based click-to-call system using **Twilio Voice API, Node.js/Express, React.js**, and REST APIs for outbound calling, call-status tracking, and call logging.
- Configured and customized Magento 2 in a Docker environment, troubleshooting backend services and search-indexing issues.
- Developed a custom Magento 2 admin module with UI Grid reporting, date-range filtering, Chart.js visualizations, and REST API integration.
- Implemented secure application practices including input validation, CSRF protection, and SQL injection prevention.
- Built responsive WordPress websites and reusable Elementor-based templates for business and marketing requirements.
- Collaborated with product managers, QA engineers, and cross-functional teams in Agile development cycles.
- Conducted code reviews, followed coding standards, and supported junior developers through technical guidance.

Associate Software Engineer — Azinova Technologies, Technopark, Thiruvananthapuram

2023 – Nov 2024

- Developed web applications using **PHP, Laravel, MySQL, HTML5, CSS3, JavaScript, jQuery, Bootstrap, and AJAX**.
- Developed and integrated REST APIs for web and mobile clients using Laravel, including API versioning and structured error handling.
- Implemented Stripe payment integration with idempotency keys, webhook verification, and transaction validation across 1,000+ transactions.
- Built responsive frontend interfaces from design mockups using HTML5, CSS3, JavaScript, jQuery, Bootstrap, and AJAX.
- Implemented reusable frontend UI functionality using JavaScript and jQuery to reduce duplicated code across modules.
- Collaborated with design and QA teams to implement, test, and deliver application features.
- Used Docker and supported application deployments through Vercel and Render.

- Participated in Agile ceremonies, code reviews, and CI/CD workflows using GitHub Actions.

System Engineer — Novelx Technologies, Eraviputhoorkadai Jun

2022 – Sep 2023

- Developed and maintained web applications using **PHP, CodeIgniter 3, MySQL, HTML5, CSS3, JavaScript, jQuery, Bootstrap, and AJAX**.
- Implemented login, session management, role-based access control, and authorization features.
- Developed responsive frontend pages using HTML5, CSS3, Bootstrap, JavaScript, and jQuery.
- Used AJAX for asynchronous data loading and frontend-backend interaction.
- Optimized MySQL queries and troubleshoot application issues across frontend, backend, and database layers.
- Created Python automation scripts to streamline repetitive development and team workflows.
- Collaborated with team members throughout development, testing, deployment, and maintenance.

KEY PROJECTS

Buddy Invoice System — Multi-User Finance Automation Platform | Laravel 8/12, React.js, Node.js, MongoDB, Redis

- Developed a multi-user finance platform supporting invoicing, approvals, reporting workflows, RBAC, and audit logging.
- Implemented Laravel background jobs for heavy report processing, reducing user-facing report response time by approximately 60%.
- Improved API performance through query restructuring and Redis caching across frequently accessed endpoints.

Hotel Booking API Platform | Python, FastAPI, PostgreSQL, Redis, Docker

- Developed REST APIs for hotel inventory, availability search, booking, and cancellation workflows.
- Implemented database transactions and row-level locking to prevent double bookings for overlapping reservations.
- Implemented JWT authentication, RBAC, Redis caching, SQLAlchemy, Alembic migrations, and Docker-based deployment.

Click-to-Call Dialer — Personal Project | Twilio Voice API, Node.js/Express, React.js, REST APIs •

Developed a browser-based click-to-call application using Twilio Voice API and Twilio JavaScript SDK.

- Built Node.js/Express APIs for Twilio access tokens and call-status webhooks, with call-event logging.
- Developed a React.js call-center interface displaying live call status, duration, and call history.

EDUCATION

Bachelor of Computer Applications (BCA) — Nesamony Memorial Christian College, Marthandam | 2016 – 2019

CERTIFICATIONS

- Python Basics & Advanced — Networkz System
- Power BI — Great Learning
